The Growing Gardeners Summer 2016 Weekly Series is designed to encourage youths and families to be more active and enjoy gardening.

We will not discriminate on the basis of race, religion, color, sex, nationality, family status or handicap. While our program is designed to be self sufficient, younger gardeners (3rd grade and younger) will need family assistance.

We are not liable nor is South Burlington city, Park or Recreation for any injuries, losses, damages, settlements, costs or expense or liabilities arising from gardening at Wheeler Nature park.

Children will be encouraged to get dirty and use tools they bring from home.

Safety is a vital part of this program. The staff maintain the right to exclude an individual from some or all activities if behavior or safety is an issue.

I hereby grant my child and family to participate in this gardening class with the understanding that they may want to do this at home too.

I grant permission to photograph my family and/or child in these activities.
